## EDUCATION

Full-stack development At  
John Bryce  
(With Certificate of  
Excellence - 99-grade  
average)

## PROFILE

Software developer with autodidactic abilities.

Experienced with React, React Native, Angular, NoSql, and SQL databases, NodeJs, and micro-services. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Bilingual, hardworking, and ready to join my next team.

## PROJECTS

### DnCreate

Jul 2020 — Dec 2020

React Native app made by me as a self-learning project.

Developed with a NodeJs Express back-end and a MongoDB database both written and developed by me, with hosting on Microsoft Azure.

I have included the use of React hooks, Functional and Class components, Rest-API, Redux, User authentication by email with Mailgun, programmable PDF generation, both front and back end OOP models for handling large amounts of data, and full back-end security authentication middleware.

Handling a large user base of over 800 users, with a rating score of 4.4 out of 5 (as of Dec 2020) and a user acquisition rate of 45 users per day.

### NivFit

Oct 2020 — Present

React native fitness app developed by me as lead-developer together with a team of fitness advisors.

Technically focused on UI UX presentation, advanced React animations, React context, and React refs.

As lead developer, I was responsible for taking the suggestions of the fitness team and writing them into working code.

### Sky-Buy

Jun 2020 — Jul 2020

A local supermarket website, built using an Angular front-end connected to a NodeJs Express with a MongoDB database back-end.

Featuring user creation and authentication, saving current cart information using Redux, fully functional order system with printable PDF receipts.

### CryptoBear

Nov 2019 — Jan 2020

Cryptocurrency site made with jQuery and using Ajax calls to remote servers.

UI was made with bootstrap library

## EMPLOYMENT HISTORY

### IT Coordinator, Malam Team

Petha Tikva

Jan 2018 — Aug 2020

Coordinated and managed a team of over 30 technicians and software experts in the world of commercial IT. Experienced with work under pressure and finding real-time solutions to logistical problems for a high-value VIP customer base.
