Profile

Experienced Web Developer adept in all stages of full-stack development. Proficient in an assortment of technologies, including Javascript, TypeScript, React, React Native, NodeJs, MongoDB, and Angular. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Projects

Jul 2020 — Present

DnCreate

Self-made project using React native. A full mobile application connected to a custom back-end NodeJs server and MongoDB database both hosted on azure. Continuous updates of new systems such as player parties, group chats, group photo galleries, a user marketplace, and more delivered to a growing user base of now 2000 users. DnCreate gave me immense experience working along with continuous user feedback, a strict update schedule, and self-learning.

Jun 2021 — Jul 2020

My Portfolio

A small project I made with React with a heavy emphasis on UI/UX. Replicating an old terminal in a web environment without the use of outside libraries.

Aug 2020 — Sep 2021

SkyBuy

My final project at John Bryce, a full website imitating a local supermarket online store. using Angular as a framework connected to a NodeJs MongoDB back-end.
was awarded with a score of 100.

Employment History

Jan 2018 — Aug 2020

Petha Tikva

IT Coordinator at Malam Team

Coordinated and managed a team of over 30 technicians and software experts in the world of commercial IT. Experienced with work under pressure and finding real-time solutions to logistical problems for a high-value VIP customer base.
